Prefatory Note

The ART INDEX is an index to domestic and foreign publications. Although primarily a periodical index, yearbooks and museum bulletins are included. The main body of the Index consists of subject and author entries to publication articles arranged in one alphabet. In addition there is an author listing of citations to book reviews following the main body of the Index. Subject areas indexed include archaeology, architecture, art history, city planning, crafts, fine arts, graphic arts, industrial design, interior design, landscape architecture, museology, photography and films, and related fields.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The Committee, as part of its study, prepares a list of periodicals representative of all subject areas included in the Index for consideration by the subscribers.

Selection of periodicals for indexing from this list is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall index coverage.

While the responsibility for all indexing and editorial decisions rests with The H. W. Wilson Company, every effort is made by the Company to follow the recommendations of the Committee and the subscribers to a given periodical index.

Suggestions for addition or deletion of titles should be brought to the attention of The H. W. Wilson Company, 950 University Avenue, Bronx,, N.Y. 10452.

Explanatory Notes

ARRANGEMENT

Author and subject entries are listed in one alphabet. No title entries are made. Divisions within major subject areas (such as ART) are filed in the following order (1) General subdivisions (Art—Themes), (2) Geographical subdivisions (ART—China), (3) Inverted headings (ART, Indonesian), (4) Phrase headings (ART and literature).

BOOK REVIEWS

Citations to book reviews are listed in a separate alphabet following the main body of the index. Some book reviews are also indexed under subject headings; their title is supplied with [review article].

HEADINGS

Corporate names used as headings are listed under various appropriate subject headings, e.g. ARCHITECTURAL firms and groups; DESIGN firms and groups; TEXTILE industry—United States.

ARTICLE TITLES

Supplied titles or parts of titles are enclosed in brackets.

ILLUSTRATIONS

Works of art (up to ten) are listed in a note after the artist entry when illustrations accompany an article. If illustrations of an artist exceed ten, they are not itemized, but their number is given in the entry, e.g. 25 il.

REFERENCES

See references lead from terms not used as headings to those under which entries are to be found. *See also* references lead to related subjects. Cross references are made to inverted headings from the uninverted form. For example, it is possible to find all headings divided by "Chinese", e.g. Chinese enamels. *See* Enamels, Chinese.

Explanation:

The first entry lists a colored reproduction of a Chinese porcelain dish of olive green glazed celadon ware with a lotus design; it originated in the time of the Song dynasty. This reproduction can be found in volume 11 of *Arts of Asia* on page 15 of the November/December 1981 issue.

The second entry lists an article entitled "Titian's portrait of Giacomo Dolfin" by C. Hope. The article has bibliographic footnotes and illustrations, some of which are colored. It appeared in *Apollo* New series volume 115, on pages 158 to 161 of the March 1982 issue.

The third entry lists the work "Danäe" by Titian, reproduced in color in volume 209 of *Connoisseur* on page 108 and 109 of the March 1982 issue.

The fourth listing leads to a reproduction of an ink drawing of "Houses in a landscape", attributed to Titian, in volume 42 number 1 of *Art Journal*, on page 4 of the Spring 1982 issue.

The fifth entry refers to a reproduction of "Venus blinding Cupid", painted by John Smibert as a copy of Titian's work with the same title. This reproduction is located in volume 64 of *The Art Bulletin* on Page 134 of the March 1982 issue.
